

## Project Date & Location

 December 2023

 Private Home, Shropshire

## Specification

- ◆ 75 Linear meters of Aluminium Aligator Box Guttering in a bespoke 7047 (Telegrey 4) Satin Finish
- ◆ Matching 72mm x 72mm Flushfit modern downpipes
- ◆ Both the gutters and downpipes have clean, sharp lines; meeting the clients contemporary brief

## Solution

Marley Alutec Snapfit Aligator aluminium box gutters, 120x80mm profile, with 72mm square Flushfit downpipes and a life expectancy of 50 years plus.

## The Benefits

**Durability:** Aluminum is highly resistant to rust and corrosion, making it an excellent choice for gutters that need to withstand the elements.

**Low Maintenance:** Unlike gutters made from other materials, aluminum requires minimal maintenance. When properly installed and maintained, aluminum box gutters can last for decades.

**Aesthetics:** Able to colour match your property, giving it that high end look.

## Installation

By the home owner

Installation guides are available on most systems to help make sure you achieve the best results.
