

# frost

## Product Specification

### Name

Frost Grating adjustable 150mm square nickel bronze threaded

### Code

31.4102

### Description

Frost Grating adjustable 150mm square nickel bronze threaded

Height adjustable gratings designed to suit almost any floor finish. The threaded outlet allows the grating to be set precisely with the finished floor level. Each grating will typically give a height adjustment range of 25mm. Extra adjustment is available with extension collars.

The 4" NPSM threaded outlet is compatible with Frost cast iron bodies.

Nickel bronze BS 1400
