

TRADITIONAL EXPRESS COLOURS

Pipes and fittings are supplied ready to install with a two pack gloss paint finish as standard, suitable for internal and external installations. All pipes also have a yellow ochre two pack epoxy internal coating.

Standard Traditional Express black products are available from stock and due to our recently completed on-site painting facility, push fit soil systems are also available in Traditional Express Coloured finish. Traditional Express Coloured offers Traditional Express soil items supplied pre-painted to match any RAL or BS colour reference. We are able to offer a Colour Match service taken from an existing sample.

Traditional Express systems are pre-painted as standard which provides the following benefits:

- Quicker installation and reduced costs; can reduce installation time by up to 50%.
- No requirement for hazardous materials on site and minimal down time caused by inclement weather conditions delaying painting.
- Factory applied two-pack epoxy coated finish has a life expectancy of 10- 15 years (inland areas).
- Delivered protectively wrapped to provide whilst protection in transit and on site.
