

**HARMER**

BUILDING DRAINAGE

**Non-Combustible Fixed Head Paving Support Pedestals****Product Data Sheet**

European Classification (Euroclass) A1 Fire Rated paving pedestal.  
Manufactured from steel, it provides a super strong support for paving slabs  
Large height-adjustable range available for every application.

- Perfect for balconies, terraces, podiums & roof decks
- Will not crack, split or warp
- Highly durable zinc nickel finish provides excellent corrosion resistance

**Technical Specifications**

Product Material	Mild Steel
Finish	Aztec Zinc Nickel corrosion resistant finish
Height Range	13-585mm
Compression	1000kg
Base Diameter	90mm Dia
Max joist width	60mm

**PEDESTAL HEAD**

Rigid pedestal head, welded to upper threaded section provides totally rigid support for decking. Accommodates joists of 50mm. Features holes in either side for simple fixing to joists.

**THREADED SECTION**

Externally threaded rigid tube. Features locking ring, which ensures absolute stability.

**WIDE SUPPORTING BASE**

Totally flat supporting base evenly spreads the load, protecting membranes and surfaces. Holes enable pedestals to be fixed to surface where applicable.
