Manufacturer: Marley Alutec, Unit 1 (G-H), Hudson road, Elms farm Ind. Estate, Bedford MK41 0LZ

Product information

For further product information select the relevant link below.

Technical Services Department

Marley Alutec Technical Services Department has many years' experience in assisting specifiers with all aspects of drainage design and installation. For advice, contact them on technical@marleyalutec.co.uk or call 01234 344108.

Installation

Overflow outlets should be set no higher than 50mm above the expected water runoff level. Dress and bond waterproofing over the outlets body ensuring the drainage grate is left clear.

Fire Ratings

Aluminium is a listed non-combustible material as defined by BS476:Part 4, similar to other metals i.e. steel, brass, copper etc. These items are manufactured solely from aluminium alloy and is therefore non-combustible.

Environmental

Marley Alutec is committed to continually reducing its environmental impact and is accredited to ISO 14001:2015.

Standards

All Marley Alutec systems are manufactured to and in excess of the appropriate BS or EN Standards.
